

Good Fractise Fubility untuing
4. General information of the good practise
Name of the good practice
Mainte of the good practice
Number and type of organisations involved
The state of the s
Economic sectors involved
·
When was the good practice established
5. Good practice public funding: please describe the GP (to what problem/shortage/lack/need does the GP contribute to)
C The condition of and advantage of the bound
6. The good practice was funded primarily through
eu funding
national public funding
regional public funding
local public funding
joint publi-private funding
other
7. Please describe the funding instrument
-what % of the total funding needed, did the funding cover?
-what were the conditions for the funding?
-what were the conditions for the funding?
-what were the conditions for the funding?
-what were the conditions for the funding? -is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?)
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?)
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan?
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics Textiles
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics Textiles Construction and buildings
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics Textiles
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics Textiles Construction and buildings Food, water and nutrients
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8. Is the GP related to some of the sectors listed in the EU's Circular Economy Action Plan? Electronics and ICT Batteries and vehicles Packaging Plastics Textiles Construction and buildings Food, water and nutrients
-is the funding bound to a time factor? (For example how many years does the funding continue or is it a lump-sum, is there a payback period?) 8.
